

## ZOT Mask Light Bulb Replacement

“Replace incandescent bulbs with LED’s”

**#400265 Red LED** (12-Volts) for centers with AMF Pinspotters: **\$13.50 each**

**#400261 Red LED** (24-Volts) for centers with Brunswick Pinsetters: **\$13.50 each**

ZOT has made improvements to the LED replacements for incandescent light bulbs on Mask units. The new LED’s are RED (when lit), which yields a “greater degree of brightness” in typical bowling center lighting.

**The Effective Life** of the product is 100 times longer than the bulbs they replace.

**Power Saving:** LED’s use less than 1/10th of the power used with incandescent bulbs.

**They are easy to install:** Simply push and turn, just like the old bulb.

**“IMPROVED”**  
Increased Brightness Level
